Laptop Lock-up® LL-10-07-AL
11-DRAWER E-TOOL CABINET

LAPTOP LOCK-UP® / E-TOOL CABINET FOR WIRELESS LAN SOLUTIONS

Laptop Lock-up® cabinets provide safe storage, charging, and communication solutions for military maintenance technicians throughout the United States. Each technician can be assigned an individually keyed drawer (other options available) in which to store their ruggedized computer. The drawer has the capability to charge the laptop battery and connect the laptop to the WLAN. The data communication connection is provided by a patented coiled Cat 6 wire system and an Ethernet switch which is backed up by a UPS.

Wireless LAN solutions enable organizations to extend the reach of their enterprise networks beyond of offices and other wired facilities. With WLAN technology, users in remote or hard-to-wire locations such as aircraft flight lines and landing decks can access databases, information, and applications just as if they were connected to the wired enterprise LAN.

Functions:
- To easily secure laptop computers, recharge batteries, and download/upload data
- For storage of test equipment

Features:
- No installation necessary; simply remove from carton, connect to main power supply located on back of cabinet, and connect data line to switch. Cabinet is then ready to securely store lap top computers or test equipment with the capability to recharge and / or download data while the laptop is secured in the drawer
- An Ethernet switch can be located in a locking security enclosure
- UPS provided for Ethernet switch and fans
- Patented power supply system; power to each of the 10 computer drawers by a UL approved coiled cord with 3 prong grounded outlet
- Cat 6 Data connection to each of the 10 computer drawers is by a patented coiled cord system with RJ45 jack
- Locking rear door allows easy access to internal components of cabinet
- Two fans provided for additional ventilation
- Each drawer has a cam lock all keyed differently with 2 master keys per cabinet, or one-lock system is available
- Drawers and cabinet vented on bottom, sides and front
- Security enclosure protects Cat 6 and Ethernet switch from unauthorized access
- Four wheels provided with unit
- Highly durable textured powder coat paint in Tan, Black and Stealth Blue (other colors available)

Static Safe's Laptop Lock-Up® cabinets provide secure storage and battery charging for laptops that operate with wireless LAN networks.
