

LAPTOP LOCK-UP® STORAGE SYSTEM

SPECIFICATIONS FOR LAPTOP LOCK-UP® CABINETS

Construction: 14, 16, 18 gauge welded steel

Cabinet Dimensions: W20" X D20" X H 21_"

Drawer Dimensions:

- W16" X D16" X H8_" -2 drawer cabinet
- W16" X D16" X H5_" -3 drawer cabinet
- W16" X D16" X H3_" -5 drawer cabinet

Functions: To easily secure lap top computers, recharge batteries, download/upload data. For storage of test equipment.

Features:

- No installation necessary; simply remove from carton, plug-in main power supply located on back of cabinet and connect modem jacks to back of cabinet. Cabinet is then ready to securely store lap top computers or test equipment with the capability to recharge and/or download data while the laptop is secured in the drawer
- Available in 2, 3, or 5 drawer models
- Drawers and cabinet vented on bottom and sides
- Data connection to each drawer is by a coiled cord with RJ45 or RJ25 jack, drawer offers additional opening for second data connection
- Patent pending power supply system; power to each drawer by a UL approved 16 gauge coiled cord with 3 prong grounded outlet
- Each drawer has a cam lock all keyed differently with 2 master keys per cabinet
- Patent pending adjustable built-in stands. Stand height is set at 12" and easily adjusts to 16" or 20" in approximately 2 minutes
- Cabinet can be stacked 2 high. Remove stand from top cabinet and bolt to lower cabinet in any direction, front & front, or front & side allowing for convenient and complete storage needs
- Highly durable powder coat paint, color: Stealth Blue (other colors available)

Options:

- Fan- mounted at bottom of cabinet for extreme conditions.
- Cabinet can be customized to your specifications
