

Stand Height Adjustment

5 Drawer model

- 1) The cabinet stand is set at the factory at 12 inches.
- 2) We recommend the 12-inch setting if two cabinets are to be stacked together.
- 3) The stand maybe adjusted to 16 inches or 20 inches (if desired).
- 4) Lay the cabinet on one of its sides. (Protect the cabinet finish from scratches)
- 5) Remove the four bolts that secure the stand to the cabinet. (2-front, 2-back)
- 6) Slide the stand out to the desired height, 16 or 20 inches.
- 7) Align the holes in the cabinet with the holes in the stand.
- 8) Replace and secure the four bolts into the cabinet and stand.
- 9) Return the cabinet to an upright position.
- 10) Continue onto Operating Instruction #7, 8 & 9.
